Askern						
1. Take the A19 into Askern,if coming from Doncaster direction you need to turn right in Askern. It is the first/only turning as you get into the town and it goes to Moor. After crossing the Railway level crossing v the right for Rushy Moor lane. Go down here and continue when it becomes a dirt road.About Half a mile down you come to a gate ,go through and close it behind you.The Jetstream is outside the Bungalow z further on called Church Farm. It actually belongs to 300sq. ATC in Doncaster 2. found at the end of a very bumpy farm track and remember to shut the gate after you. When we arrived there was only one guy. Was very helpfull allowing us access to 2 of the 3 hangars and the offer to look in the Jetstream.

Belfast		Civ / mil Airfield, Belfast Aldergrove						lata / Icao code	EAA
<p>Er is een Viewing Gallery vanuit de Arrivals te bereiken. Richting Burger King volgen en dan rechts de trap omhoog nemen. Echter, het is een zeer kleine ruimte achter schuin, licht getint glas, met de altijd aanwezig van Ook heb je de hele dag tegenlicht op dit punt. Houdt er rekening mee dat fotograferen echter streng verboden is op en rond de hele luchthaven! Bij aanhouding worden deze mensen voorgeleid.</p> <p>Daarom besloten op onderzoek uit te gaan. Volg de weg richting Belfast en doorkruis ter hoogte van de holding runway 25 een groot moerasachtig weiland. Daar zijn mogelijkheden om door een hek heen foto's te maken toestellen op de taxibaan. 30 mm. voor een B737 is voldoende. De 727 was met 28 mm net te doen. Veel groter moet je daar dus niet tegenkomen! Echter, na ongeveer 15 minuten daar gestaan te hebben kregen we de van de luchthaven politie die van luchthavenpersoneel gehoord had dat er mensen langs het hek stonden. Hij maakte ons vriendelijk duidelijk, dat dat in Belfast wettelijk streng verboden is en daartegen wordt opgetreden. Gelukkig was de man minder onaardig gestemd toen we zeiden dat we uit Nederland kwamen en ook het tonen van de Schipholpas wist hij zeker te waarderen. Achterlaten van de persoonsgegevens moest echter wel even. Deze man heeft zijn collega's van ons op de hoogte gesteld en van de politie hebben we verder geen last meer gehad</p>

Bristol Lulsgate Airfield lata / Icao code

Je kan in de landing prima fotograferen, beide kanten. Er loopt rondom het veld een landweg.... je staat dan naast de taxibaan...50-200 mm is voldoende... hekje is zo laag dat je zelfs geen trap nodig hebt om merendeel van de dag zonnetje in de rug... Vooral vrijdag en zaterdag zijn drukke dagen met veel charters.. Links van de terminal kun je een gedeelte van het platform zien plus de lineup van de baan.... Om te fotograferen is de plek niet goed, wel om te registreren..

Got lost trying to find this, but found what's left of N5834N (RC112? Reg canc '99) as a bonus. Off the A48 at the third junction, signed the opposite direction. In amongst all the industrial estates, down a little track, Newton Road, next to Pegg's and some sort of Lawnmaster. From the main road and is a write off but doesn't look like it crashed there.

Charlwood Yard					

There is also a yard in Charlwood, which I have not investigated. It can be found by taking the Russ Hill road out of Charlwood and then an angled right turn before the end of the houses. If you pass the windr Gone too far. The yard used to be visible from the zoo [now closed] and in which grounds sits the windmill.							2004

If I remember correctly I drove into town on the B6228, kept left and went right at the first big roundabout. Stay on this road and after a few Training Centre is on the righthand side. After asking it was no problem to have a look around. They also had a large fuselage which looked like a Meteor. They had just sold this airframe to an unknown customer (at least my guide did not know).

Colsterworth WSV Metals,Honey Pot Industrial Estate							
The yard is south of the Colsterworth junction (A151) of the A1 so dont miss it like I did. Its a great place for buying ex military vehicles. Anyone for a green goddess!! What is interesting about Honey Pot Industrial estate is that it is on the old airfield of High Witham. There is a map of it on the wall as you go in reception. Does anyone have information on this as I have never heard of it before.? This is stored at Witham Specialist Vehicles, on the HoneyPot Industrial Estate just south of the village (along the A1). When you enter the estate it is the third or fourth company on your left hand side, and the Shar is along the Road that leads up to the office. I guess it should be visible when the gate is closed, although this might be difficult when it is completely dark. The code is only the last digit, read off on the main gear door the rest had been taped over. Is this 124?

Cosford paintball centre

B. I went looking for this last June. I found the paintball centre ok, just south of J.3 on the M54. I drove into the woods as far as I could go , but couldn't see any aircraft. If it's still there, I'd like to know too, as I r but I can't even recall the serial now. B.A friend just told me that "he thinks the Vampire is gone". This refers to the one that was used by a war gaming group, in a field near the M54.

Coventry Coventry Airport

To transfer from Coventry to Birmingham you will need to take a bus from Coventry Airport to the railway station in the city centre. From there buy a ticket to Birmingham INTERNATIONAL (NOT Birmingham I At Birmingham international station there is a monorail to the main terminal at Birmingham. Viewing is possible from the Aviation Experience located in the terminal building, but this is behind glass. In the mor is better from the outside enclosure near the long stay car park, or further along from the car parks themselves. In the afternoon photography is best from the field to the rear of the TriStar hotel. If you haven't Friday is probably the best day when, amongst others, you will be able to photograph Uzbekistan, Turkmenistan and Air Slovakia 757, Pakistan A310, Air India 777 and Mahan Air A320. If you advise me of yo To help with moving you to the TriStar hotel location and ladders, which you will need for good runway shots.

Airbase								Iata / Icao code
EDR								
For anyone on holiday in Cornwall RNAS Culdrose are operating guided tours by coach of the base. The tours last about 75 minutes and include a short film about the base. Although you can't leave the the coach during visits each of the squadron aprons and a fair number of aircraft can be read off. The tours cost £4.50 for adults with reductions for kids & oap's.They can be booked at the spectator area shop from which the tours leave - Phone 01326 565085 for further details and times.

Duxford		Duxford Imperial War Museum						

Britain's most impressive museum, hosts annual air shows, off course you can stand on the airfield it self but there is a small sun light problem, actually your looking directly in to the sun from the museum. Luckily there are a number of place where you have a great view of the air show and a spectacular photographic opportunity, and this for free,...of course this is a bonus and not the main thing

Edinburg		Airport							
<p>Spotten op Edinborough is perfect. Er werd geland op de 24. Ik heb gestaan op de plek waar de toestellen van de baan draaien na de landing en heel kort voor je langs taxien. Er staat echter wel een hek om het veld heen dus om te fotograferen is een trapje noodzakelijk maar als je deze bij je hebt komt wel alles mooi voor je langs gereden.</p> <p>De weg er te komen weet ik niet precies maar als je de terminal verlaat zit de plek aan je rechter hand. Zelf had ik een lease auto en dan is het bij de rotonde die van het vliegveld afgaat rechtdoor een soort industrie terrein. Als je aan het eind van deze weg rechts gaat dan rij je er zo naar toe.</p> <p>Er is een mega groot parkeer plaats op een gras veld aangelegd waar je zo op kunt gaan staan en bij het hek staat van het vliegveld.</p>

Faygate										
dump										

The simplest way to find it is to take the Crawley-Horsham road. Continue over the Faygate roundabout and, when approaching Horsham, do a 180 back towards Crawley at the next roundabout [left is to Horsa]. When coming back towards Crawley take the first left to Wimbush over the level crossing. Continue up the hill about 1 mile towards Rusper. At the top of the hill is a right turn back towards Faygate, taking you just after the right turn is the yard [on the right] with 2 gates.

Info:

Galway Airport

Official web site: <http://www.galwayairport.com/index.asp>

Info: In Galway city centre according to Wreck and Relics there was a glider on display (T8 Tutor VM657/1AG6). It is however no longer there. The management of the shopping centre where it was hanging said it was removed some time ago + believed taken back to the airport. Nobody there knows anything about it unfortunately.

London London Gatwick Airport

									LW	EGKK
--	--	--	--	--	--	--	--	--	----	------

Info: Eerst maar naar het terras gelopen buiten (nadat je de immigratie bent gepasseerd ga je 1e verdieping naar boven richting het eet gedeelte via een grote trap, dan ga je linksaf, totdat je een halletje links van je ziet waar dan ook liften staan) de entree kost 1 pond 50 en je mag in en uit lopen op vertoon van je kassabonnetje. Het zicht is (als je alleen nummertjes schrijft okee, maar de fotografen onder ons balen van deze stek, ik heb er v 1 foto gemaakt van een A330 van US Airways die net versleept werd, en er werd op de verkeerde kant opgestegen, dus zat ik in dubio, of hier blijven of naar de 08 gaan (ruim een uur lopen). Rekening houdend met he (fraie zon en wolken partijen), heb ik het terras verlaten, en ben naar de aankomsthal teruggelopen, en buiten een taxi aangehouden met de opdracht "ga naar de andere kant van de baan", dit was geen ongebruikelijke en de taxichauffeur bracht mij precies waar ik wezen moest, aan de kop van de 08, lekker zittend in het weiland, allies platen wat er binnenkomt, gaaf gewoon. Het zonnetje gaat wel na 15.00 vervalend worden door pal i baanlengte van de 08 te gaan hangen, maar dan hebben nog altijd de "crash gate" (er loopt een weg om de 08 heen waar een grote heg van bomen het zicht belemmert v.w.b. de lining up van de kisten, dit wordt on door een groot hek waar je tussendoor heel mooi de kisten kan platen die b.v. staan te wachten voor een landende kist. Mijn vlucht ging om 19:25 weg dus heb ik om omstreeks 17:30 de taxi weer gebeld om mij op te pi GPC carpark, pal op de hoek van 08, binnen tien minuten stond hij er, heen en terug kostte wel 20 pond, maar dan heb je wel de hele dag plezier...

Info:	Apart from the Tornado which is preserved outside on the parade ground, all aircraft are preserved inside in the Trenchard Museum. We made an appointment and were shown the whole collection. The curator is a very enthusiastic retired guy, who knows what he is talking about! We asked him also about the Bulldog that is supposed to be here with the local ATC unit (2409 sq), but he didn't know anything about it. And a few tries to call Who would know didn't get through.

De beste oplossing bij westenwind is dat je de metro neemt tot Hatton Cross, dat is vanuit terminal 1-2-3 maar enkele minuutjes. Dan zit je tussen de runways 27R en 27L, vanuit Hatton Cross is het dan ongeveer 10 minuten wandelen tot één van de banen. Zoals je waarschijnlijk wel weet veranderen ze om 15.00u van baan. Van de éne naar de andere runway is 20 minuten wandelen, je gaat gewoon terug langs Hatton Cross. Bij oostenwind neem je best de bus naar RW 09L, deze baan wordt dan de hele dag gebruikt voor landingen. Ik heb de H-30 al eens genomen, die is gratis. Als je een vriendelijke bestuurder hebt zet hij je misschien wel af aan de 09L, want eigenlijk is daar geen halte. Ik zou echt oppletten om te gaan spotten op een carpark, de politie controleert zeer streng. Het visitor center is geen Goede keuze, je kijkt de ganse dag in de zon. http://www.lhr-ign.pwp.blueyonder.co.uk/ http://mitglied.lycos.de/planespotTERS/lhrspot.htm http://www.scramble.nl/civ/airports/egll.htm http://members.lycos.co.uk/heathrow/ http://www.toandfrom.org/airport/heathrow.html http://www.scramble.nl/airports/index.html

Henfield Its parked in the yard of the Winterpick Business Park, which is on the Wheatsheaf Road / B2116 Lane.											
Info:	Being a Sunday no one was about to ask and the electric vehicle access gate was shut. However it was possible to walk (30ft) just passed the right side gate and see the Jaguar from a distance to the left.

West Yorkshire		Leeds Bradford Intl Airport				lata / Icao code	LBA EGNM

<http://users.belgacom.net/lbaspotter/index.htm>

- Terminal. Limited views are available from the cafeteria on the first floor of the terminal building. All aircraft landing or taking off are easily within binocular range. Arrival/Departure information monitors are present. However, only a limited portion of the ramp can be seen.
- RWY 32. To get perfect landing shots for RWY 32, a little bit more work is needed. From the terminal turn left at the roundabout, go through the tunnel, and continue to the traffic lights by the Yeardon Stoops and at the top of the hill turn onto some waste ground. Park here (unless you have a 4 x 4 vehicle) as it gets very rough and you may get stuck. Walk forward to the airport fence. You'll find good panoramic views. Turn right and follow the fence. It turns into a footpath between the airport and golf course. At the corner by the windsock the fence is low, and you are above the runway just above the touchdown point. Good as it often gets quite muddy here. For a Jetstream 41, a 200 mm lens will give you a close landing shot.
- RWY 14. From the terminal go straight across at the roundabout and follow this road to a T junction. Turn left, follow the road under the approach into a cutting. Just as you rise out of the cutting, turn hard right and park here (next to the cemetery). This is another good spot for photographs as you are slightly above the airfield looking down on the 14 threshold.
- Eastern End. Aircraft parked at the eastern edge of the apron are difficult to identify. There is a Garden Centre nearby, from where you may be able to read off some of these aircraft. However, ground equipment sometimes prevent a clear view. To get to this location, turn right at the roundabout (signposted A658 Harrogate). Go past "Yeardon Airport Depot" on the right, Coney Park on the left (Heliport is just after entrance). At next crossroads turn right. The road descends and just after right turn on left hand bend there is a pull-in on the right. This is the location from where you can see the aircraft on the east apron. If you pass Highbury Garden Centre, you'll find good views. Turn right and follow the fence. It turns into a footpath between the airport and golf course. At the corner by the windsock the fence is low, and you are above the runway just above the touchdown point. Good as it often gets quite muddy here. For a Jetstream 41, a 200 mm lens will give you a close landing shot.
- Horsforth Old Ball pub/Station Road. Parking available on roads around the roundabout and the pub car park too if you are visiting it. This pub is very close to the location of one of the runway marker beacons. Turn left, then left at the roundabout and under the runway tunnel. At the traffic lights/crossroad turn left (Bayton Lane) and follow to the end. Turn left (Brownbarrie Lane) and follow this to the roundabout. The Old Ball is on the right and various parking available. The roundabout is pretty much right under the flight path and the planes are quite low here. A good spot if you like to count plane wheels while drinking. want to get right under them, walk into the housing estate opposite the Old Ball.
- The Royalty pub, Yorkgate, Otley Chevin. There is parking along this road and the pub has its own car park. The LBA runway is visible over the fields about 2 miles away. Planes taking off over Otley pass on just beforehand. Gives a good view down the runway and the 'hump' (the runway is not flat) is clear. From the terminal turn left and then straight across the roundabout. Follow this road and turn right at the end (NB blind bend round a building) and turn left (towards Otley). Follow this road and take the next left (Yorkgate) which is just in some dips in the road. Follow this to the pub (on the left), parking in the car park. The pub or at the side of the road just after. LBA is off to the left. This road was absolutely packed when Concorde first came visiting.

We went to Moreton yesterday and after finding the ones you listed we took a right turn down a path that said Crown Properties or something similar,we proceeded down climbed over a gate that the house owner gave Us permission to do so.Then about 200 yards down here we could see a JP on its side with wings nearby.

Notting Hill MuTATE

Info: There's some kind of art community living here, right under the A40. Both helicopters have been "modified" a lot and look rather interesting. They are open on Friday evenings, but since there were people working we kno Gate and were allowed in to graph both helicopters in return for a small tip.

this garage is along the B1240, but we failed to find it there. We asked at a pub along this road, and they didn't know of any garage along that road either. They gave us the advice to check a garage in a nearby town to be a good advice: although the aircraft wasn't there the owner of the garage was a little bit aviation minded as well and knew where we had to go. The garage is indeed in Preston, and is located in South of Wright's Garage by the way. The nose is behind the building, and can also be reached when the garage is closed.

Stansted		Airfield						lata / Icao code	ESS
-----------------	--	----------	--	--	--	--	--	------------------	-----

spotten in Stansted is niet echt makkelijk. Je kunt de vliegtuigen eigenlijk alleen goed zien airside. Het is niet mogelijk om bij de baan te komen als je geen auto hebt.

Er is een plaats op de personeels-parkeerplaats waar je een uitzicht op 1 van de platformen hebt. Als je uit de terminal stapt moet je naar rechts lopen. Neem de voetbrug over het spoor Van deze brug kun je de parkeerplaats voor je liggen (kijk in de richting van de verkeerstoren). Als je naar de parkeerplaats loopt, dan vind je vanzelf het hek met het uitzicht. Hier heb j dus je zult wel een laddertje of zoiets mee moeten nemen.
Dit is de beste plaats. Officieel mag je hier alleen NIET komen. Ik ben er 2 keer geweest. Een keer heb ik er 3 uur kunnen staan voor ik werd weggestuurd. De andere keer ben ik na an > > En zijn er nog goede fotografermogelijkheden langs of op de luchthaven????????.....

Yep, vanaf de terminal gezien is de eerste is vlak bij de FedEx ramp, de tweede is vlakbij de FLS hangaar de volgende aan de kop van de baan, nabij het hotel. Vanaf de terminal gaan bussen naar de parkeerplaats aan de andere kant van het veld. Dit heet "Pink Elephant", zelf niet geprobeerd, daar ik vlak bij de terminal ben gebleven Vanuit de terminal ga je linksaf en loop je langs de weg naar beneden en steek je de rotonde recht over . Aan de overkant van de rotonde kan je de inrit van een parkeerplaats in en sta door het veld in en je ziet hek rond het veld al staan en daar loop je over het pad naar toe en vanaf daar volg je het hek naar rechts . Op een gegeven moment gaat het hek in een links / rechts bocht en even daar voorbij krijg je een bomerijtje en net daar voorbij heb je een open plek alwaar je goed kunt vertoeven en met 200 mm de 737's kunt platen . De plek is niet ideaal , want je ziet de kisten maar een korte tijd vanachter de bomen vandaan komen en weer aan de andere kant achter het heuveltje aan de kopse kant van de baan verdwijnen (een beetje hatton cross achtig van Heathrow , maar met iets meer tijd.....) . Als iemand een betere plek heeft horen we dit graag langs de taxibaan wordt je steevast weggestuurd

Hatch									
Thorncote Green									
Info:	1. Bedfordshire, Not sure if you can see it from the road as its behind some sheds. Its at Skysport engineering's workshops- but from the road I think there are no signs. 2. Additions to the directions the left turn is signposted "Hatch" and when you get to the village turn right and Skysport is then 0.4 miles on the left.

Wittering		Royal Airforce Base						lata / Icao code		

You can get pretty good views over the base. Coming up the A1 from the South, take the left turn for Wittering village (easy to miss). Following the road through the village, you will come to the fence where you have limited views of one or two aircraft. Continue along the fence, the road swings left away from the base. After a couple of hundred yards there is a farm track on your right going up the hill, from where you can see a flightline to the left of the hangars. A number of years ago the farmer told me that he had no problem with people walking up and reading stuff off, no idea if this still stands. I would suggest you leave your car wander! There are trees to lean on to get steady for reading off!

If you head back and join the Northbound A1, pull over immediately by the old bus stop, just after the main gate, from here you can walk up the main road and read anything on the ramp that side of the hangar (not entirely sure that this is still in use to be honest).

Yeovil

Airfield

Iata / Icao code

1. In my experience the best place is a path which is accessible by heading directly towards the factory. As you get to the main gates there's a cul de sac on the right. Park there and then take the footpath from the end. If you also head round the far side (follow the signs for the crematorium) you get views over another part of the airfield but I haven't been here for a while and the roads have now changed so perhaps others could help here?

2. From the west, from the A303 take the A3088 towards Yeovil. After about 5 miles you will come to a roundabout. Go straight across. This road runs along the southern perimeter of the airfield, towards the rotor test too. This is the starting point for your tour.

From the north, from the A303 / Ilchester / Yeovilton take the A37 towards Yeovil. After about 3 miles, there is a small village on a left hand bend with 40MPH speed limit, and a speed camera. Turn right here onto small r (which saves a 3 mile detour) and follow this road down the dip, and then up the steep narrow hill. After about a mile you come to a crossroads. Go straight across, and then down the hill. After another 1/2 mile you come to a oddly shaped mini - roundabout. Turn right here. Follow the road along, leaving the 30 MPH limit into the 40 MPH limit. After another 1/2 mile, turn left (all the traffic goes this way). Go up the hill, then over the crest, and down the hill the other side (past the football ground). After 1/2 mile you come to a roundabout (for Currys, Great Mills, Comet etc) Go straight across. Another 200yds, another roundabout. Again go straight across. Then a 3rd Roundabout by a fish and chip shop. Go straight across again. The airfield western perimeter fence is now on your left. Turn left, and you've reached the starting point for your tour.

From the south, from the A37 from Dorchester. As you approach Yeovil, you come across the first roundabout. Go straight across. The after about another mile a second roundabout, opposite the Quicksilver mail Pub. Turn left onto the A30 towards East Coker. Crewkerne. After about 1 1/2 miles another roundabout. Turn right and go down the hill. At the bottom of the hill is another roundabout, where you turn left. The road curves right for the next 1/2 mile. Then another roundabout. Turn right, and you've reached the starting point for your tour.

From the East, from the A30 / Sherborne, you come down a long dual carageway hill. Straight on at the roundabout at the bottom, past Pittards and Yeovil Pen Mill Railway station. Then a mini roundabout, here you go sort of left/straight on towards the town centre. Past a Jeep and Peugeot garage. The road then forks left / right. Take the right hand fork (the main A30). The road then forks left / right again. Take the left hand fork. Go up the hill past the Fire/Ambulance station (you need to be in the right hand/ outside lane here) continue up the hill until you reach the next roundabout (the Hospital roundabout). Go straight on, down Queensway, past Tesco to the next roundabout (the police station roundabout). Turn right here. There is a pedestrian crossing and then some traffic lights next to PC World. Go straight on. Then some more traffic lights (the entrance to McDonalds & Safeways). Again Straight on. Then some more traffic lights (the entrance to Westlands & a new B&Q store). For the third time, straight on. Then after about 1 mile, a roundabout. Go straight on here, and follow the road as it bends round to the right. Then another roundabout. Turn right, and you've reached the starting point for your tour.

Ok by now you should be near the rotor test towers. Park up in the (unused) back entrance to the Garrador Factory - you won't get bothered here. This is where helicopters do their electrical tests before their first flights. If you are lucky there may be something parked here. There are 3 pads. The higher of them is a bit of a pig when Lynx's are on it because their tails are so low to the ground it makes it difficult to read them off. But the lowest pad (the ECM pad) is great, and right next to the fence. There is an old railway bridge that you can walk on to (very busy narrow road, so watch that you don't get run over!) which looks directly down on the ECM pad, and is great for photos (but be quick - the security people aren't too keen on this). There is a dumped Lynx plus a few bits of prototype/mockup EH101.

Once you're done at the rotor test towers, head back towards the roundabout. Turn right. At the next roundabout (the fish and chip shop) go straight on (If you want, park up in the fish and chip shop car park - there are sc limited views of the airfield from here). Go past the crematorium, to the next roundabout. Turn right. Go straight on at the next set of traffic lights (the ASDA entrance). After about 200 yds, there is a turning on the right next to a shop (can't remember if its an antique shop or a hairdressers). It's opposite an old disused school, and signposted to Wessex Water and Yeovil College. Go str on up this track. It gets narrow and muddy (like most crash gate entrances!) Eventually you will find the perimeter fence. From here you get a better view of the top rotor test tower pad. You can also walk down the perimeter fence back towards the Palmers Fish and chip shop.

When done here, head back to the road. Turn right. Go down the hill, past the Bell Inn / Hungry Horse Pub (some good Westlands memorabilia in here by the way) Take the next road on the right (Westborne Grove. You can go straight on, through some allotments to the perimeter fence here, but you are too low down to see anything. Instead, take the first left. Go along this residential street. After 1/2 mile, there is a turning on the right to Westlands Sports & social club. Take this turning. Park in the social club car park (on the higher level, nearest the perimeter fence). Then climb up the bank at the back of the sports hall. Walk to the right hand end where views are the best. You will probably notice that most of the helicopters (particularly the ones to the right hand end) are annoyingly difficult to read off, because they are partly hidden behind a dip. Don't worry. There are usually a few beer/milk crates at the right hand end of the bank for you to stand on top of (if there aren't - nick some from the back of the sports club!). The record is 3 stacked on top of each other, but balancing on top of them can be a bit tricky. Anyway, you can usually get everything that is out on the main ramp.

If you can't get everything from here there is one more place to try. Leave the Sports and Social Club the way you came in. When you get back to the entrance Turn right towards the Hairdressers. Then turn right again into Preston Grove (NOT Preston Road if you get lost). This heads down hill, bends left, then past a Scout Hall and a Church. Preston Grove then changes name and becomes Huish. Straight on, up the short hill, and turn right into Westland Road at the Post office / Video / cc Go down the hill, and straight on at the crossroads at the bottom (chinese takeaway at the crossroads) Go straight on until you see Westlands car park on the right. I normally park on the road here, but if there is space y park in the car park. There is a small 'residents only' type road on the right just before the entrance to the car park. Walk or drive up here until you come to the end. You can see the main ramp from here, but things tend to nose /fall on and so can be difficult to read. Also, Merlins are big buggers, and they tend to get in each others way. The road ends, but there is a path that goes around the end of the airfield. You can walk along here as far as you like to increase the reading angle (it eventually ends up at the Sports and Social club you were at earlier). But i while it goes down hill, and you can't see anything from here. This path takes you under the approach end of the runway, so if you want photographs, and you are prepared for a long wait, this is probably your best bet. However, don't be surprised if the security people come and bother you. Most people just tell them to pi* (the path is a public right of way) but you can get the odd 'jobs worth'.

Anyway, that concludes your tour of Westlands perimeter fence. On any given day you will be lucky to see more than 4 or 5 helicopters. I find the best times are 9am, and about 1.30pm on weekdays. Most people pop in 'on their way to Yeovilton', rather than sit here all day long, because it is usually very boring. Also between 9 and 11 on Saturdays you may catch one or two, if you are lucky. You won't get anything on a Sunday. Hope
